Council Member Dennis asked if CleanSpark was purchasing an additional 122 acres of land and Hartley stated they have already purchased it. Dennis said that was too large of a footprint for them to have to bring in additional data centers. Hartley continued to review the amendment. Howard said that CleanSpark would be responsible for all the cost of the new infrastructure. Dennis continued to express concern about the number of acres purchased and said there should be something in the amendment that limits them to the number of acres. Keith said they couldn't exceed the 248MW of power that they have now. Council continued to discuss the amendment.

Eddie Kleid, Levi Kerlin and Brad Day with Smith Douglas Homes answered questions regarding the Special Exception and Variance on the agenda. Council Member Dennis asked about square footage of the homes. Kleid said most would be between 1,000 and 1,300 sq ft. with some larger units also available. The price point for the basic 1,000 sq ft house is \$159,900 or possible lower. Council Member Salter expressed concern lowering the setback between homes. Kleid said they could keep it at 10ft. Kleid also said most of the units will have one car garages with the bigger homes having the option of a two car garage.

Also, he reviewed data showing the lead and copper results have decreased over a years' time frame. This was due to the increase in chemicals used.

Kandice Hartley reviewed items # 8 and 9 on the agenda. These items are for the Christene Harris Park playground equipment and shelter shade. It came in a little over budget.
